George T. Baker Aviation Technical College is at the forefront of Aviation Maintenance Technician education. The technical college offers three programs: Aircraft Airframe Mechanic, Aircraft Powerplant Mechanic, and Avionics Technician to both adult and dual-enrolled students. The school is certified by the Federal Aviation Administration under FAR part 147 and is accredited by the Council on Occupational Education. Our students learn through a state-of-the-art curriculum combining classroom instruction with hands-on shop activities using actual aviation aircraft and equipment.

SECTION 2 – TIMELY WARNING AND EMERGENCY NOTIFICATION MEASURES

In the event of a threat or danger to students, staff or visitors, a building lockdown is initiated following District guidelines. The principal or designee is responsible for issuing the warning using the school public address system. Following a lockdown, an emergency meeting is held by administration and the Critical Incidence Response Team to review the response. This information will also be provided to staff at department meetings so all teachers can be fully informed of the occurrence.

Moreover, School Board Policy 8410 - Critical Response/Emergency Procedures directs the Superintendent of Schools to establish annually a District Critical Incident Response Team (DCIRT). The DCIRT is responsible for assisting schools with emergencies and critical incidents as needed and coordinate district resources. The Superintendent has developed and updates, as needed, a Critical Incident Response Plan (CIRP)/Emergency Operations Plan (EOP) for all schools. The DCIRT, will be responsible for providing updates to the plan and training for school site administrators. In accordance with Florida Statutes, the CIRP/EOP should be confidential and exempt from public record.

SECTION 3 – PREPARING THE ANNUAL DISCLOSURE OF CRIME STATISTICS

Persons should report crimes to the appropriate site administrator and school police for the purpose of issuing a timely warning notice and inclusion in the annual crime statistics for that campus.

The crime statistics for George T. Baker Aviation Technical College are maintained and provided by the Miami-Dade Schools Police Department (M-DSPD) which has jurisdiction for all of the district's public schools. M-DSPD works closely with the Miami-Dade Police Department and other municipal police departments to respond to school incidents and emergencies as part of City Compacts and Memorandum's of Understandings established with the numerous municipalities in Miami-Dade County Florida. Criminal incidents are reported to MDSPD which documents these incidents via the Police Offense Incident Reports. School administrators also document incidents using the District's Automated Incident Response System (AIRS) which archives and maintains a log of all major incidents for district schools.

The MDSPD provides George T. Baker Aviation Technical College the crime statistics required to complete the Annual Security Report (ASR) mandated by the Clery Act for the last three calendar years. The report is made available to the public, employees, faculty, and staff at bakeraviationtechcollege.com. A hardcopy of the report can be obtained from the main office. The school will notify all students, faculty, and staff of the availability of the annual report once it is finalized and submitted to the United States Department of Education.

Students who believe they have been harassed or discriminated against are entitled to use the complaint process in Policy 5517.02. Students and parents are encouraged to present complaints of discrimination or harassment by other students or employees to the Principal. Complaints against employees will be referred by the Principal to the CRC Office as soon as possible after the alleged conduct occurs while the facts are known and potential witnesses are available. During the investigation, the complainant and the subject of the complaint shall be provided an opportunity to present witnesses and evidence relevant to the complaint. The Principal shall apply the Code of Student Conduct to allegations of discrimination/harassment by students.

The investigative process through CRC involves the investigation of complaints of harassment and discrimination based on the protected categories. The CRC office investigates each case within a reasonable time.

Documentation of investigations of complaint, and of any corrective action taken by the school site and throughout the District, will be maintained by the department that conducted the investigation. Records of ongoing investigations are kept confidential until a final determination is made on each case. During the investigative process, appropriate preventive measures will be taken to protect the victims and the school community. Subsequent to the completion of a case, the complainant and the subject of the complaint will be provided with written notification of the outcome of the investigation. The District will take remedial action, as necessary, to address and resolve any substantiated complaint of discrimination or harassment and to prevent its recurrence.

Initiating a complaint will not adversely affect the complainant's participation in educational or extracurricular programs, unless the complainant makes the complaint maliciously or with knowledge that it is false. Investigation of an allegation shall not be proceeding solely on the basis of an anonymous complaint without first attempting to ascertain the identity of the complainant. If after such efforts, the complainant remains anonymous, the investigation will proceed to the extent possible.

Privacy/Confidentiality

George T. Baker Aviation Technical College respects the privacy of students, the individual(s) against whom the complaint is filed, and the witnesses consistent with the Board's legal obligations to investigate, take appropriate action, and comply with any discovery or disclosure obligations. All records generated under this policy and Policy 5517.02 shall be maintained as confidential to the extent permitted by law.

The complaint process in Policy 5517.02 is not intended to interfere with student rights to pursue complaints with the United States Department of Education, Office for Civil Rights, or the Florida

Department of Education. The CRC Office processes such complaints according to the procedures

and standards set forth by Federal and State agencies.

Education and Training

The Board promotes preventative educational measures to create greater awareness of unlawful harassment and discrimination. The Superintendent shall provide appropriate training to members of the School District community related to the implementation of this policy and Policy 5517.02.
